4. First Aid Measures

- Swallowed: Product fit for consumption as food
- Inhaled: Minimize inhalation. If large amount inhaled move to fresh air. If breathing problems occur consult a physician
- Skin Contact: Wipe of excess, wash with clean water
- Eye Contact: Wash eyes extensively with clean water. If irritation persists see a physician.

5. Fire Fighting Measures

- Extinguishing Media: Use carbon dioxide, dry chemical, alcohol-resistant foam or water spray depending on requirements of surrounding conditions
- Hazards of Combustion: Non-combustible material. Any fine powder is susceptible to fire risk so keep away from combustion sources. Nonfat Dry Milk, like all fine powders, is potentially explosive if present at high enough concentration.
- Advice for Firefighters: Wear appropriate PPE consistent with the requirements of the surrounding conditions

6. Accidental Release Measures

Personal Precautions, protective equipment and emergency procedures:

Spills can be cleanup with a dustpan and broom or shovel. Water can be used to flush spill areas. Avoid the production of dust as it can produce an explosion hazard at high enough concentrations. Dispose of spilled material by approved solid waste disposal measures. See Section 8 for any necessary personal protective equipment.

- Environmental Precautions: Keep large quantities of this material from drains
- Methods and Materials for Containment: Keep in closed container for disposal.

7. Handling and Storage

- Safe Handling Precautions: Use a dust mask if handling large quantities. Always work in well ventilated areas to avoid buildup of dust
- Safe Storage Conditions: Store at ambient temperature in closed containers located in well ventilated areas

8. Exposure Controls and Personal Protection

Control Parameters

Components with workplace control parameters: Does not contain components with occupational exposure limits

Engineering Controls: Use in areas with adequate ventilation

Personal Protective Equipment

Eye / Face Protection: Safety glasses are recommended to minimize dust exposure

Skin Protection: Protective gloves are recommended

Respiratory Protection: Respiratory protection is not required. Use of a nuisance dust mask, type OV/AG (US), is recommended

Environmental Protection: Keep large quantities of product from drains
